Colin Wilson appointed Technical Director at the Government Actuary's Department

Colin Wilson has been appointed as Technical Director of the Government Actuary's Department (GAD) with effect from 1 April 2011, and will join the GAD Management Board as an Executive member.

Colin will continue to head up GAD's Investment and Risk work, a role he has held since joining GAD in February 2009. Prior to joining GAD Colin was Director of Research in the Portfolio Management Group of Prudential M&G, before joining financial risk consultancy Barrie & Hibbert as a Senior Consultant.

Colin has strong links with the Actuarial Profession, currently serving as a member of the Profession's Enterprise Risk Management executive committee.

Editor's notes

The Government Actuary's Department (GAD) provides actuarial analysis for the public sector from the public sector, and has been working within government for almost a century. GAD offers actuarial services to governments and public sector organisations, in the UK and around the world, covering pensions, social security and insurance. Based in London, GAD employs 140 people, of whom 60 are qualified actuaries.
